Smoother driving can improve your gas mileage!

Would you drive differently if you knew it could save you gas and money? Maximize your mileage with the Digital Fuel Mizer. This ingenious device is the simplest way to learn how your driving style impacts your fuel consumption. Advanced microchips monitor your driving and tell you when hard acceleration and braking are costing you money. Tests show that it can actually reduce your fuel use by 10-20%. Works on all types of vehicles; mounting strip attaches to any fixed surface. 3-year warranty. Batteries included.
